## Professional Experience

### WEB DEVELOPMENT

I have web development, with a solid understanding of HTML, CSS, and JavaScript. I have built responsive websites and implemented dynamic features using front-end frameworks and basic backend integration. I am comfortable working with version control (Git) and have experience deploying web applications. I am actively expanding my skills in modern web technologies and best practices.

### MS WORD

I have experience in using Microsoft Word for creating professional documents. My skills include formatting text, tables, and layouts, using styles and templates, and inserting charts, images, and references for well-structured content.
